cleft sentences (it is / what ... is ...)

ЩО ТАКЕ CLEFT SENTENCES

Cleft sentences — це спеціальні конструкції, які використовуються, щоб *виділити або підкреслити* певну частину речення (особу, час, місце, причину тощо).
Найпоширеніші типи: **It is/was ... that/who ...** та **What ... is ...**.

КОЛИ ВЖИВАЄМО

- 🎯 **Фокус на конкретній частині → It was John who called.**
- 🧩 **Фокус на ідеї / дії → What I need is a break.**
- ✍️ **Письмова та нейтральна розмовна мова (для наголосу без інтонації)**

ОСНОВНІ ТИПИ

ТИП	СТРУКТУРА	ПРИКЛАД
It-cleft	It + is/was + focus + that/who + clause	It was John who called.
It-cleft (time/place)	It + is/was + time/place + that + clause	It was yesterday that we met.
What-cleft	What + clause + is/was + focus	What I need is a break.

Who використовується для людей, **that** — універсальне. Час у cleft-реченні залежить від основної події.

ПРИКЛАДИ

It was yesterday that we met.
Саме вчора ми зустрілися.

It's her voice that I remember.
Саме її голос я пам'ятаю.

What I like most is your honesty.
Найбільше мені подобається твоя чесність.

ТИПОВІ ПОМИЛКИ

- ❌ Неправильний час → *It is yesterday that we met* → ✅ **It was yesterday that we met**
- ❌ Плутанина з простим порядком слів → cleft потрібен лише для наголосу
