## ЩО ОЗНАЧАЮТЬ МОДАЛЬНІ ДІЄСЛОВА ЙМОВІРНОСТІ

**Modals of probability** використовуються, щоб висловити *ступінь впевненості* у припущенні.
**must** — майже впевнені (логічний висновок).
**might / may / could** — можливо (є шанс).
**can't** — неможливо (логічно виключено).

## КОЛИ ВЖИВАЄМО

🔍 **Логічний висновок → He must be tired.**

🤔 **Невпевнене припущення → She might be at work.**

🚫 **Неможливість → He can't be serious.**

🕒 **Для теперішнього та минулого (з have + V3)**

## ФОРМИ

| ЗНАЧЕННЯ | СТРУКТУРА | ПРИКЛАД |
|---|---|---|
| Висока ймовірність | must + V / must + be | She must be at home. |
| Можливість | might / may / could + V | They might arrive late. |
| Неможливо | can't + V / can't + be | It can't be true. |
| Про минуле | modal + have + V3 | He must have forgotten. |

Для минулих припущень завжди використовуємо **have + V3**.

## ПРИКЛАДИ

**It must be cold outside.**
Напевно надворі холодно.

**She might be at work.**
Вона, можливо, на роботі.

## ТИПОВІ ПОМИЛКИ

- ❌ *mustn't* як припущення → ❌ ні (це заборона) → ✅ **can't** для «неможливо»
- ❌ Пропускають *have* у минулому → *must forgot* → ✅ **must have forgotten**
