participle clauses

ЩО TAKE PARTICIPLE CLAUSES

Participle clauses — це *скорочені підрядні речення*, які використовують форму **V-ing** або **V3**, щоб додати інформацію про *час, причину, умову або результат*.

КОЛИ ВЖИВАЄМО

⏱️ **Час / причина → Feeling tired, he went to bed.**

📄 **Пасивне значення → Built in 1990, the house looks old.**

✂️ **Скорочення підрядних речень (when / because / if)**

Підмет participle clause має бути *тим самим*, що й підмет головного речення.

ОСНОВНІ ТИПИ

ТИП	СТРУКТУРА	ПРИКЛАД
Active	V-ing, + main clause	Walking down the street, she met an old friend.
Passive	V3, + main clause	Seen from above, the city looks tiny.
Perfect	Having + V3, + main clause	Having finished the work, he went home.

Having + V3 підкреслює, що одна дія *завершилася раніше* за іншу.

ПРИКЛАДИ

Walking down the street, she met an old friend.
Ідучи вулицею, вона зустріла старого друга.

Not knowing what to say, she stayed silent.
Не знаючи, що сказати, вона мовчала.

ТИПОВІ ПОМИЛКИ

- ❌ Dangling participle → *Walking down the street, the house appeared.*
- ❌ Різні підмети в частинах речення → participle clause стає нелогічним

GL GoodLang
